

Preliminary Visual Simulations

This Appendix includes copies of existing conditions/visual simulations prepared based on PG&E's preliminary substation concepts before PG&E finalized the Proposed Project in 2006. The views included here are from approximately the Key Viewpoints (KVPs) indicated, which were established for the Initial Study analysis. These simulations are provided for informational purposes.

Approximate Initial Study Key Viewpoint	Existing Conditions and Visual Simulation Prepared by PG&E
KVP 1	Figure Ap.3-1a and Figure Ap.3-1b. Chaparral Park (Originally Figure 4-3 of Proponent's Environmental Assessment, August 2005)
KVP 3	Figure Ap.3-2a and Figure Ap.3-2b. Heidorn Ranch Road (Originally Figure 4-4 of Proponent's Environmental Assessment, August 2005)
KVP 7	Figure Ap.3-3a and Figure Ap.3-3b. Future Sand Creek Road, looking southeast (Originally PG&E's Deficiency Response #33a, November 2, 2005)
KVP 8	Figure Ap.3-4a and Figure Ap.3-4b. Future Sand Creek Road, looking southwest (Originally PG&E's Deficiency Response #33b; November 2, 2005)
KVP 9	Figure Ap.3-5a and Figure Ap.3-5b. Future Northbound Hillcrest Avenue Extension, looking northwest (Originally from PG&E's Deficiency Response #38b; December 21, 2005)
