Subject: Underground utilities for Sun Lakes Country Club

TO: *Juralynne Mosley, CPUC Project Manager*

With reference to the subject, please be advised that my husband and myself are greatly in favor of these utility wires being placed underground. This would be beneficial medically for all of us who come in contact with this area and certainly be beneficial aesthetically. I would imagine that it would impact property values in addition in a favorable manner. Please consider this a request for this project to go underground as the CPUC has recommended. Thanks for your consideration.

C14-1

Judith Root

Sun Lakes Resident & Golfer

Responses to Comment Set C14 – Judith Root

- C14-1** Please refer to original Draft EIR (December 2007) Sections D.7 (Hazards and Hazardous Materials), D.12 (Visual Resources), and F.2.2 (Property Values). Your support for the Partial Underground Alternative has been noted. The Environmentally Superior Alternative has been re-evaluated and is identified in the Recirculated Draft EIR, Section E (July 2008) as the Proposed Project. Please see General Response GR-1 for a discussion regarding the change in determination of the Environmentally Superior Alternative.
