Concerning SUNRISE POWERLINK

Those in power at SDG+E are not thinking of the pristine environment found in the backcountry of San Diego. Can some common sense replace the greed that SDG+E is exhibiting?

I drive interstate 8 and see the SOLAR PANELS in Alpine. These solar panels create energy for their school there. Why not place SOLAR PANELS on school and government buildings throughout San Diego? It makes sense to CREATE SOLAR ENERGY instead of pollute the skies with huge power lines which also create fire danger?

Please - use common sense! NO POWERLINES!!!
called "Sunrise Power Link!"

GO SOLAR!

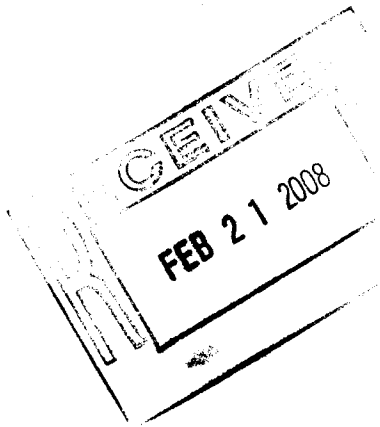

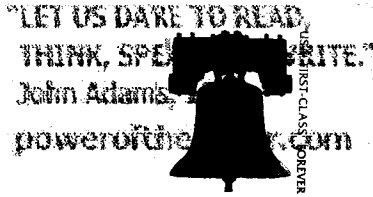

Think of our future in S.D.
Thank You,
Dyan Winsky
