Environmental Impact Report Topic: Sunrise Powerlink

Comments: _____

- 1) Conservation is key
- 2) ANZA Borrego SP Land/Wilderness must be preserved conserved - if we allow this, what is to stop landfills etc for the "public good"
- 3) The ACIS impacted by this project do not include the visual impact - and ~~SP~~ ABDSP impacts should include replacement land for the viewshed lost
- 4) All plans must look at long term, sustainable solutions. Importing power verse local generation and conservation only compounds the problem

Signature John Horton Date 2/27/09
