Gentlepersons

No to Sunrise Powerlink in east  
San Diego County and Yes to  
locally generated "Smart Energy" solutions

Our rural lives and homes do not  
deserve unnecessary, ugly, disruptive, obsolete  
energy projects. Our wildlands are rare  
precious, and to be enjoyed not only by  
families nearby, but by the children and grand  
children of city people who don't even know  
about natural lands with their wealth of  
interesting and valuable plants & creatures

And the enclosed CalTech seismological  
report demonstrates the disruptive possibili-  
ties of Cerro Prieto, now considered an active  
volcano, as a power source. For more reliabil-  
ity, we need less, not more dependence  
on foreign sources

# Recent Earthquakes in California and Nevada

*The source of Powerlink's geothermal power*

---> Please visit our reorganized earthquake pages at - <http://quake.usgs.gov/> <--- including new CA-NV pages at - <http://quake.usgs.gov/recenteqs/latest.htm>

Click on an earthquake on the above map for more information.

Click on an arrow at edge or corner of above map to go to an adjacent map.

Click here to go to [index map](#) || [big earthquake list](#) || [all earthquakes list](#)

Special maps: [Long Valley](#) || [Los Angeles](#) || [San Francisco](#) || [Parkfield](#)

Map need updating? Try reloading the page to your browser.

Maps are updated within about 5 minutes of an earthquake or once an hour.

Brown lines represent known hazardous faults or fault zones. White lines are roads.

**What happens when I click on an earthquake?**

Update time = Mon Feb 25 15:00:02 PST 2008

Here are the earthquakes appearing on this map, most recent at top ...

MAG	DATE	LOCAL-TIME	LAT	LON	DEPTH	LOCATION
	y/m/d	h:m:s	deg	deg	km
