D0096

To whom this may concern,

The Draft Environmental Report concerning the Sunrise Powerlink is a damaging polluting and very unnecessary. It will scar our countryside.

Please reject this damaging proposal. Plus it will contaminate ^{into} our underground water for our wells.

Please vote No on this project, and save our quality of life and our natural wildlife & lands.

Our area has many rare birds & animals that will be endangered.

Thank you,
Sincerely,

Kay & Vern Schoore
