**BLM Coordinator
California Public Utility Commissioners**

**Re: Sunrise Powerlink Transmission Project
Application 06-08-010
Figure ES-12/Imperial Valley Link Alternatives Retained/January 2008**

Request For Adopting "FTHL" Alternative for Imperial Valley Link system

Dear BLM coordinator and California Public Utility Commissioners:

: My name is Benjamin Kwon, a Principal for **Castle Eurasia Corporation & Zen Media Corporation** who has been working for **"Imperial Gateway"** a master planned development project since 1992 with a number of major home builders such as Lennar/D.R. Horton/Pulte/Centex and K.B.Homes.

My counsels and my partners had expressed their concerns for serious adverse impacts to **"Imperial Gateway"** consisted of 1,210 acres abutting I-8 at Dunnaway On/Off ramp. The detailed analyses and assertions had been delivered and filed to California Public Utility Commission and to BLM, therefore, I, Benjamin Kwon as a representative of above mentioned parties, hereby again would like to request BLM and California Public Utility Commission to **adopt "FTHL" a straight short cut link system on the basis of "saving installing and maintaining costs for generations to come and evading any alleged favoritism that might be the issues in this case. It is possibly the least adverse impact to every one of us.**

Thank you for your hard works for General Public, and Castle Eurasia Corp. & Zen Media Corp., as a representative of concerned parties, I, Benjamin Kwon appreciate your patience and generosity.

Sincerely,

Benjamin Kwon

Principal for Castle Eurasia Corp./Zen Media Corp./Joshua Hunter/Douglas Hunter
