Subject: Fwd: Opposition to West Evan Hewes route

Aspen Environmental Group:

My husband and I have invested in this property for the last 10 years which include two waterski lakes surrounded by trees, parks and unspoiled desert.

We strongly oppose the proposed route for the Sunrise Powerlink which would place the transmission towers right next to our property line.

Each homeowner has family and friends who visit the property and enjoy the openness of the desert skylines, there is no reason to have the power lines that close to families which include small children when there are alternate routes that would not effect the outcome of the project.

This proposed southern route of the Sunrise Powerlink is too close to this small community, there are alternate routes that need to be looked at that will not affect homeowners.

Thank you,

Teresa and Ron Hall
2828 West Evan Hewes, lot #16
Imperial, CA 92251
