Subject: Fwd: Sunrise Powerline

To whom it may concern:

I am a frequent visitor to Anza Borrego State Park and I oppose the proposed plan to put a power line through the park. This is a beautiful and peaceful park and is home to the Borrego sheep, an endangered species. A state park is meant to preserve beauty, not to be an easement for a power company. Please reconsider this ill advised plan, find another site for this power line, not a place created to preserve nature.

Thanks,

Sharon Zemon
