4/5/2008

I have lived at 20276 Japatul Rd. In Alpine for 19 Years. This powerlink (if built) will run adjacent to my land about 1000 feet and will come within 75 feet of it. I oppose this project for the following reasons.

- 1.) Visual- This powerlink will not only spoil the natural landscape and beauty of the entire back country and Cleveland National Forest but it will be in our view from all areas of my entire property.
- 2.) Noise -We have been told that we are in the area where the 500ku power line will produce noise level that are concentrated extensively . Any noise will significantly affect our quality and enjoyment of our property. We live in the country.
- 3.)Property Values - The powerlink if built (D3 Modified Alternative) will significantly affect our property values. The powerlink is to run about 1000 feet along our western and northern borders within 75 feet at some locations. I would like to request that any and all reports of property values be sent to Lynn Snyder-- P.O. BOX 873 ALPINE CA 91903
- 4.) Health - It has been passed in several states that these high voltage lines cannot be within x distance to schools. But what about all the kids and families that will be in line with it thru our back country. We have heard of people in Campo under the power lines that have died and have cancer and their livestock have died. This issue has to be investigated further.
- 5.) Water Resources - We are on well water and depend solely on it for our water needs. Any drilling needed for the towers may interfere with our water resources. The EIR report does not cover any responsibility to SDG & E on providing us 100% insurance of any damage to our water sources This is not acceptable.
- 6.) Alternative power- the DEIR confirms we don't need the Sunrise Powerlink. There are other ways to meet our regions energy needs without destroying our National Forest, State Parks and local communities.

I am requesting any and all reports of all the topics I have listed that pertain to the Sunrise Powerlink be forwarded Via mail to Lynn Snyder P.O. Box 873, Alpine , CA 91903
