Subject: opposing Sunrise Powerlink Project

To Whom It May Concern:

I am a resident of 10+ yrs here off Gaskill Peak Rd. in Alpine, CA. I recently learned that there is a proposal to place a "tower" on top of Gaskill Peak. That's very disturbing to me and many others in this community. Not only is the peak the focus of our community but it is beautiful to look at....right now. We also are a extreme fire hazard area. When there are lightening storms in the fire season the forestry often places their trucks at the entrance to our road due to the extreme danger to us.

If you put a tower on that mountain, it would be such an eyesore to all who come up and all who live here. It would be a fire hazard to us in that the clearings to lead up to or along the "lines" with attract off roaders even if it were illegal to use them. Their vehecles send out sparks, the people are careless, and we would be at grave risk to fire. Our area only has one road that leads to our area. A dirt road. If a fire were to start due to the placement of this tower we would not have enough time to get out since it is so very close to our homes. Our lives would be in your hands and that's how we would see it.

DO NOT DO THIS. LOOK FOR ANOTHER MORE ISOLATED, SAFER PLACE FOR YOUR TOWER.

Very concerned resident of Carveacre.
