

A The **existing view** to the south toward the existing right of way's span of SR 79 from southbound SR 79, just south of Schoolhouse Road. In spite of the existing wood-pole lines, the landscape is predominantly rural in character.

B This image presents a **visual simulation** of the Santa Ysabel Existing Right of Way Alternative as it converges on and then spans SR 79. The structures and conductors would be prominently visible and would impair views of the hills.
