

## SDG&E Sunrise Powerlink Project Notice of Availability of Second Scoping Report

San Diego Gas & Electric Company (SDG&E) proposes to construct the Sunrise Powerlink (SRPL) Project, a 150-mile transmission line between the El Centro area of Imperial County and northwestern San Diego County. An Environmental Impact Report (EIR)/Environmental Impact Statement (EIS) is being prepared by the California Public Utilities Commission (CPUC), as the lead agency under California law, and the United States Department of the Interior Bureau of Land Management (BLM), as the federal lead agency, to comply with the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA).

A first round of scoping for the EIR/EIS was carried out in September and October 2006. In January 2007, the EIR/EIS team mailed a notice announcing a second scoping period to focus on alternatives to the proposed project. The notice announced a comment period from January 22 to February 24, 2007 and eight public scoping meetings, and described the 30 alternatives that were preliminarily recommended for detailed EIR/EIS analysis and the remaining approximately 70 alternatives recommended for elimination from detailed analysis. Over 150 individuals presented oral comments during the second round of scoping meetings, and 289 comment letters were submitted during the January–February 2007 scoping period. In addition, form letters from 31 individuals and a petition signed by 93 people were submitted. In addition to private individuals, 8 government agencies, 43 community and private organizations, and 2 tribal governments submitted written comments.

A **Second Scoping Report** is being prepared, summarizing all comments received during the second scoping period; it will be available April 2, 2007. This report will include copies of all written comments and transcripts of the oral comments made at the eight public meetings on alternatives. This report will be posted on the project website, as well as the first Scoping Report, the NOP and NOI:

<http://www.cpuc.ca.gov/environment/info/aspen/sunrise/sunrise.htm>

Copies of the Second Scoping Report will be placed in local document repository sites listed in the table on the reverse of this page. In addition, the document on CD and a limited number of copies will be available upon request to the CPUC or BLM Project Managers. To request a CD or paper copy of the Second Scoping Report, please email [sunrise@aspeneg.com](mailto:sunrise@aspeneg.com) or leave a message with your street address at (866) 711-3106.

### For Additional Project Information

**Project Website.** Information about this application and the environmental review process will be posted on the Web at:

<http://www.cpuc.ca.gov/environment/info/aspen/sunrise/sunrise.htm>

This site is used to post all public documents during the environmental review process and to announce upcoming public meetings. In addition, a copy of SDG&E's Proponent's Environmental Assessment (PEA) may be found at this site, and the Draft EIR/EIS will be posted at the site after it is published.

**Project Information Hotline.** You may request project information by leaving a voice message at (866) 711-3106 or sending a fax, using the same telephone number.

**Document Repositories.** Documents related to the SRPL Project and the EIR/EIS will be made available at the sites listed in the table on the reverse of this page.
