EPA'S RESPONSIBILITIES

1. Serve as a clearinghouse for technical information on successful strategies for reducing SF₆ emissions;
2. Sponsor research relating to such strategies;
3. Conduct technical conferences;
4. Provide a standard protocol to inventory, track, and report estimated SF₆ emissions;
5. Identify a Service Representative responsible for assisting the Partner in implementing the Program; and
6. Provide partner recognition for achievements through brochures, public service announcements (PSAs), articles, and awards.

PARTNER'S RESPONSIBILITIES

1. Establish a base year from which to begin estimating and reporting SF₆ emissions. The base year may be the year in which the MOU is signed or up to two years prior;
2. Submit a report each year on system-wide emissions of SF₆ and describe technologies and practices implemented to reduce emissions;
3. Develop and distribute a company-wide policy for the proper handling of SF₆ within one year of joining the program;
4. Establish an SF₆ emissions reduction goal, after careful consideration of all technically and economically feasible options available; and
5. Communicate to employees and cooperate with EPA efforts to publicize the Partnership.
