RE: Sunrise Powerlink Project – Mitigation Measure Compliance
Mitigation Measure PSU-APM-1 Task 1 for Sunrise Powerlink Transmission Project

Ms. Coronado:

SDG&E will coordinate with Imperial Irrigation District (IID) immediately prior to construction in close proximity to IID utility lines to provide information regarding construction locations and times. SDG&E will notify the DigAlert service immediately prior to construction to identify conflicts with utility providers and avoid/provide adequate operational and safety buffering.

SDG&E will coordinate will all other overhead third party utilities immediately prior to construction in close proximity to their respective utility facilities. SDG&E will identify these facilities immediately prior to construction.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Gerry Akin', is written below the 'Sincerely,' text.

Gerry Akin, Project Manager – Overhead Transmission, Sunrise Powerlink

Cc: Alan Colton, Manager – Environmental Services, Sunrise Powerlink
Arthur Holland, Construction Manager, Sunrise Powerlink
