

Sunrise Powerlink Transmission Project

Weekly Monitoring Report No. 00008

From: 11/07/2010 Through: 11/13/2010

INTRODUCTION

During the week of 11/07/2010 through 11/13/2010, construction continued at the Alpine RFO, Alpine Construction Yards, San Luis Rey Substation, Encina Switchyard, the Rough Acres Construction Yard.

Pre-Construction Activity with appropriate monitors:

Link 4, sign posting along Alpine Boulevard for traffic control and construction dates. Two PAR crews placed signage, 11/9 and 11/10 only.

Link 1, three crews marked ESA's, access roads and work areas, 11/10 and 11/11 only.

Link 5, two crews marked towers areas, 11/10 and 11/11 only.

ALL LINKS

The following is a summary of construction activity where monitors were on site.

Alpine RFO: Crews continued clearing of brush and fence installation commenced in areas where clearing was conducted. Crews stayed within flagged areas. Improvements continued on the main driveway, concrete poured in parking near office buildings and driveway, SDG&E temporary construction trailer removed.

Alpine Construction Yard: Equipment and reels deliveries continued on a limited basis.

San Luis Rey Substation: Underground foundation work and installation of capacitor banks being conducted.

Rough Acres Construction Yard: There was limited delivery of equipment during this period.

Encina Switchyard: Repair of existing footings continues. On 11/10/2010, rock was placed in the area just outside of the Switchyard to prevent track-out from occurring in the future. On 11/11/2010, an additional rumble plate was placed between the Switchyard parking area and the paved drive.

White Star Communication Facility: All work completed except for removal of one wood pole. Waiting for the tenant to remove hardware. Pole removal scheduled for 11/15/2010.

A rain event occurred on 11/8/2010. Precipitation amounts are as follows: .1 of an inch at Alpine and .2 of an inch at Rough Acres. Inspection of BMP's were made with no deficiencies.
