

Terrain and views of 15001 Ferrell Lane
El Cajon, CA 92021

Pictures of possible alternate routes

This truck could not make it up several roads and had to be pulled up to put in new

15001 Ferrell Lane
El Cajon, CA 92021

Open Space Designation
Proposed power lines would
run across the side of mtn.

15001 Ferrell Lane
El Cajon, CA 92021

We won't have air support if you put in
new lines!
This terrain is not good for power lines!

Damage with air support for the 2003 fire.
What will happen without air support or
ground if you put up 150' poles?

We won't have air support if you put in
new lines!
This terrain is not good for power lines!

New proposed lines
& How could you possibly
maintain them?

This mountain is as steep and rocky as it looks
Don't put power towers that won't blend in!
How can you possibly maintain them in this
terrain?

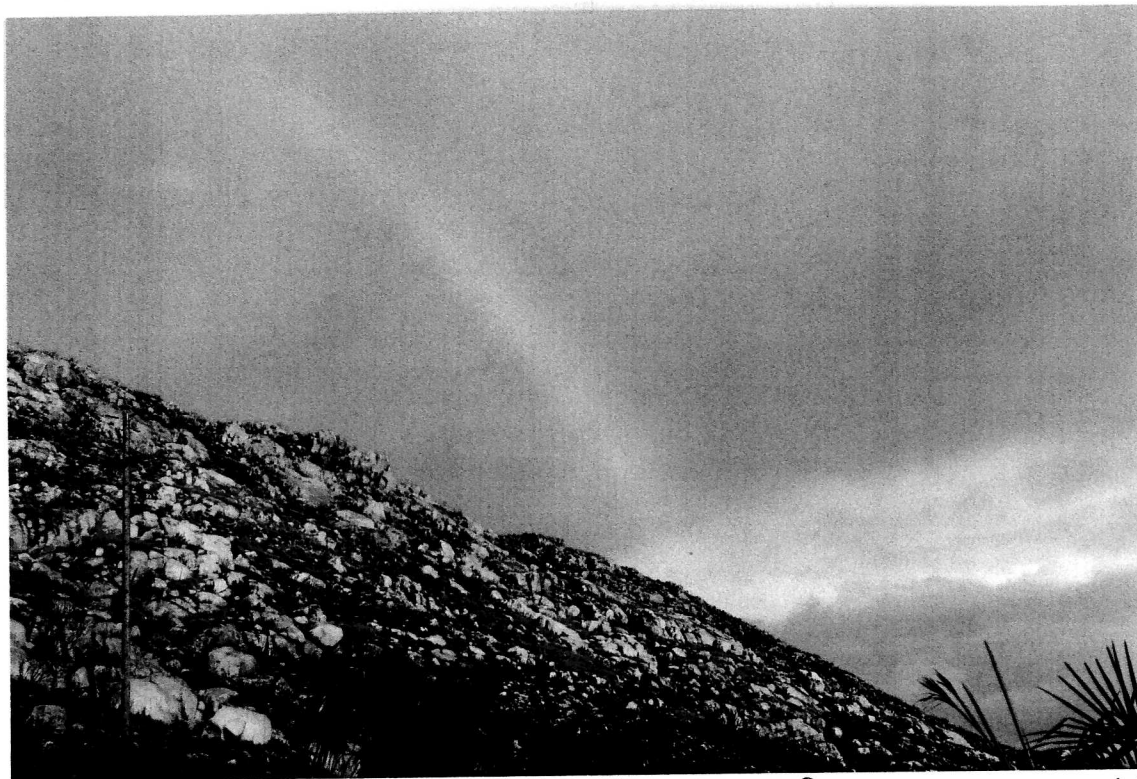

Views to South of property
Proposed powerlines would be south of existing
ones and in our view for miles

black lines in
proposed powerline

Alternate Route for West of Forest Alternate
Use existing power lines that cross at La Cresta
Road connecting to existing lines by Singing Hills
Memorial Park on Dehesa Rd

Don't damage my view further by putting in
addition lines that are larger and don't blend
in.
