California Public Utilities Commission

Energy Division

Attn: John Forsythe

Dear Mr. Forsythe:

On January 21, 2025, the California Public Utilities Commission (CPUC) submitted Data Request 001 (DR-001) to SoCalGas for the Ventura Compressor Station Modernization Project (Project). The request directed SoCalGas to provide information regarding three alternative sites: Avocado Site, Devil's Canyon Road Site, and Ventura Steel Site, in support of the CPUC's Environmental Impact Report (EIR) preparation. In response, SoCalGas has prepared the attached materials, which include three separate reports, each addressing a specific alternative site.

Should you have any questions, please feel free to contact me at agarcia6@socalgas.com.

A handwritten signature in dark ink, appearing to read "AG", followed by a long horizontal line.
