**Subject:** Viejo System Project

I am a resident in Mission Viejo, CA. and am firmly against this project. This is the first time that homeowners have had a chance to express their opinion concerning this project and the addition of more overhead lines that blight our landscape. It is time to bury the all the lines that go through our parks and residences. Please do the right thing and take our opinions seriously.

Sincerely: Gary Hicks

55-1 Thank you for sharing your concerns. Please see General Response GR-3 for information regarding the undergrounding of electrical transmission lines, as well as Appendix 8, which discusses various route options considered by the CPUC.
