

This image presents a **Visual Simulation** of the Proposed Project from **KOP 11**, on **Hathaway Street**, at the entrance to the Summit Ridge Apartments, in the City of Banning. This simulation illustrates the introduction of two TSP transmission lines into the foreground of views from Hathaway Street and the adjacent residential development. The TSPs would appear more massive, and visibly more prominent compared to the more distant pole and lattice structures that are being replaced (not readily apparent above).
