Subject: Notice to Proceed (NTP) 20 – Master Special Use Permit and Permit to Construct Power Line Replacement Projects – Reconstruction of Transmission Line (TL) 629A (Application No. 12-10-009)

Dear Ms. Reynolds:

San Diego Gas & Electric (SDG&E) has requested authorization from the California Public Utilities Commission (CPUC) to commence reconstruction of TL Line (TL) 629A.

The Power Line Replacement Projects were evaluated in accordance with the California Environmental Quality Act (CEQA) and a Permit to Construct (PTC) was issued by the CPUC on June 2, 2016 (Decision D. 16-05-038, dated May 26, 2016). **NTP 20 is granted by CPUC for proposed construction activities based on the following factors:**

- The Final EIR prepared for the Power Line Replacement Projects defined required mitigation measures to be implemented prior to project construction. The relevant mitigation measures for construction activities under this Notice to Proceed are summarized in *Attachment A* and shall be implemented by SDG&E and its designated contractor. SDG&E's compliance with the pre-construction component for each measure is noted in the status table.

NTP 20 also authorizes SDG&E to proceed with activities identified in Attachment A of the NTP 20 request, Minor Project Refinement Request (MPRR) 26, which describes changes between the final engineering for TL 629A and the 2015 baseline data.

The conditions noted below shall be met by SDG&E and its contractors for NTP 20/MPRR 26:

- MM BIO-10: Documentation that a Streambed Alteration Agreement amendment and a Water Quality Certification amendment shall be provided to CPUC prior to work occurring at Stringing Sites 30 and 32, and the temporary work area associated with Pole Z40252.
- MM BIO-29/PHS-3/NOI-3: Blasting activities are not approved at this time. Should blasting activities be required, a blasting plan is required to be reviewed and approved prior to blasting.

Ms. Kirstie Reynolds

April 19, 2019

- MM PSU-1: SDG&E shall provide, upon finalization with AT&T, the timing of the relocation activities to CPUC for review and approval prior to relocation of utilities.

If you have any questions regarding this letter or need additional information, please contact me at 415.703.1966 or lisa.orsaba@cpuc.ca.gov.

Sincerely,

Lisa Orsaba
CPUC Environmental Project Manager
