INTRODUCTION

Panorama Environmental, Inc., has completed the initial scoping process for the environmental document to be prepared for the Salt Creek Substation Project (project). The results of the scoping process are summarized in this report.

PROJECT BACKGROUND

San Diego Gas and Electric Company (SDG&E) filed an application with the California Public Utilities Commission (CPUC) on September 25, 2013, for a Permit to Construct (PTC) (Application No. 13-09-014) the project. The proposed project includes the following components:

- **Salt Creek Substation:** Construction of a 69/12-kilovolt (kV) distribution substation in southeastern Chula Vista referred to as the Salt Creek Substation. The proposed substation would include three distribution circuits to tie in to the existing distribution network at Hunte Parkway. It also would include an underground loop-in of the existing 69-kV transmission line (TL 6910) and fiber optic line located in the SDG&E transmission corridor adjacent to the proposed substation location.
- **TL 6965:** Construction of approximately 5 miles of aboveground 69-kV power line and approximately 1,000 feet of underground power line between Miguel Substation and the proposed Salt Creek Substation. The aboveground power line would be installed on 41 new steel poles and eight existing steel poles.
- **Miguel Substation Modifications:** Addition of a new rack at Miguel Substation to accommodate TL 6965.

SCOPE OF WORK

CPUC conducted public scoping to obtain comments from the public on the scope of the analysis for the environmental document to be prepared for the project under the California Environmental Quality Act (CEQA). CPUC anticipates that an Initial Study/Mitigated Negative Declaration (IS/MND) will be prepared to analyze the environmental effects of the proposed project. Formal scoping is not required under CEQA for the purpose of preparing an IS/MND; however, scoping was conducted to obtain public feedback early in the process to provide guidance in preparing a document that adequately addresses public concerns and also minimizes project controversy. Details of the scoping process are presented in the following section.

SCOPING SUMMARY

SCOPING ACTIVITY

The following tasks were performed during the scoping process:

- Noticing for and presentation of a public scoping meeting on November 21, 2013, in Chula Vista, California (see Appendices A, B, C, and D)
- Opening of a 30-day period for receipt of comments (November 21 through December 20, 2013)
- Developing and maintaining a project website hosted on the CPUC website
- Developing and maintaining a Facebook page for the project

The presentation given at the November 21, 2013, public meeting is included in Appendix A. Noticing sent out prior to the meeting is included in Appendix B (a public notice also was placed in the San Diego Union-Tribune on November 19, 2013). The mailing list for the noticing is included in Appendix C. The sign-in sheets for the public meeting are presented in Appendix D.

PUBLIC COMMENTS

Comment Letters

Three comment letters were received during the comment period (Appendix E). The comment letter topics are summarized in the table below.

Name	Comment Summary
Jacob Armstrong, California Department of Transportation (Caltrans)	Any work performed within Caltrans right-of-way will require an encroachment permit. Traffic control will be required for freeways during the placement of aerial lines.
Robert Baker, Systems Planning and Analysis, Inc.	What is the magnetic field intensity of the combined transmission lines once the new 69-kV line is added?
Nancy Scheffler, private resident	What types of environmental topics are studied? Isn't another substation being built in the south bay? Where are the other electrical towers and power lines located in our area?

Public Meeting Comments

A public scoping meeting was held at the Monteville Community Center in Chula Vista, California, at 6 p.m. on November 21, 2013. The main issues that were brought up at the public meeting concerned the following topics (refer to Appendix F for additional details):

- Certainty of the project being constructed
- Project need
- Notification of residents close to the proposed project location

SALT CREEK PROJECT SCOPING REPORT

- Health concerns associated with the new power line
- Noise generated by the new power line
- Location and appearance of the new power line poles

APPENDIX A: SCOPING PRESENTATION

CPUC Public Meeting for Project Scoping

San Diego Gas & Electric Company Salt Creek Substation and 5-mile, 69-kV Power Line Project

Application No. 13-09-014

California Public Utilities Commission

November 21, 2013

Meeting Purpose: Scoping

- **Initiating the California Environmental Quality Act (CEQA) Process**
- **Describe the proposed SDG&E Salt Creek Substation and 5-mile, 69-kV Power Line Project**
- **Describe the CEQA environmental review process**
- **Identify opportunities for public comments**
- **Receive comments on the scope and content of the environmental document**

Roles

California Public Utilities Commission (CPUC):
Lead Agency under CEQA

PANORAMA
ENVIRONMENTAL, INC.

Panorama Environmental, Inc.:
Environmental Contractor for CPUC

San Diego Gas & Electric Company (SDG&E):
Project Applicant

CPUC Process

- **Investor-owned utilities must submit a permit application to CPUC for construction of certain infrastructure listed under Public Utilities Code Section 1001**
- **SDG&E filed an Application consisting of:**
 - **Application for Permit to Construct (PTC) the project**
 - **A Proponent's Environmental Assessment (PEA)**
- **CPUC has authority to approve or deny the Application**
- **CPUC permit application review involves:**
 - **Environmental Review (CEQA)**
 - **CPUC Proceeding**

CPUC Processes

Proposed Project Application

- **SDG&E submitted an application for a Permit to Construct the Salt Creek Substation and 5-mile power line (TL 6965)**
- **The application includes a PEA**
- **Public can access the application and PEA at:**
www.cpuc.ca.gov/Environment/info/panoramaenv/Salt_Creek/index.html

SDG&E Project Objectives

- **Add additional capacity**
 - **Provide additional capacity to serve existing area electrical load and future electrical load growth**
- **Improve service reliability**
 - **Enhance distribution and power network to decrease potential for long-term outages or service disruptions to existing customers in southeastern Chula Vista SDG&E service territory**

Where is the Proposed Project?

What Does the Proposed Project Include?

Proposed Project Components

New Salt Creek Substation

- 120-MVA 69/12-kV substation on 11.6 acres of undeveloped land
- Three underground 12-kV distribution circuits
- TL 6910 loop-in

New Transmission Line 6965

- 5-mile, single-circuit, 69-kV power line within existing transmission corridor from Miguel Substation to Salt Creek Substation
- Aboveground on power poles; southernmost 720 feet underground

Miguel Substation Modification

- Minor construction to connect to TL 6965
- Pole-top work on existing structures

Project Construction Overview

Construction Schedule

- About 18 to 24 months from start to finish
- Anticipated to begin late 2014
- Anticipated to finish mid-2016

Workforce

- Up to 35 workers on site at any one time

Work Hours

- Monday to Friday, 7 a.m. to 7 p.m.
- Saturday, 8 a.m. to 7 p.m.
- Some concrete pours, transformer oil filling, and conductor stringing may require extended work hours

Equipment

- Variety of general construction vehicles
- Helicopters may be used for stringing power line

Salt Creek Substation

- 11.6-acre site southeast of Hunte Parkway
- Extensive site selection process
- Grading to accommodate the substation and supporting infrastructure
- Widening and grading existing access road
- Installation of three underground 12-kV distribution lines
- Connection of substation to existing 69-kV power line (TL 6910) and new 69-kV power line (TL 6965)
- **Construction Duration:
18 to 24 months**

Salt Creek Substation Layout

LEGEND

- Tie-Line 6964
- Tie-Line 6910
- Tie-Line 6965
- 12-kV Distribution Line

- Substation Parcel
- Substation Footprint with 10 foot Wall
- Control Building
- Vault or Manhole

- 12-kV Cap Banks
- 12-kV Termination Risers
- Transformers
- 69-kV Circuit Breakers
- 69-kV Termination Risers
- Switchgears

- Access Road
- Access Road Wall
- ◆ Storm Drain Outfall
- Water Quality Basin
- SDG&E Right-of-Way
- Cable Pole
- Global Containment

Transmission Line 6965

- 5-mile, single-circuit, 69-kV power line
- Hunte Parkway to Miguel Substation (northern border of Chula Vista)
- East of existing 230-kV lines in 120-foot-wide SDG&E right-of-way
- 41 new galvanized steel poles
- 2 new cable poles for TL 6910

Source: GeomorphIS LLC, AECOM, SDG&E, 2013; Esri Basemap, 2013

0 280 560 Feet

Scale: 1:3,360 1 inch = 280 feet

Figure 3.7
Salt Creek Substation Temporary and Permanent Disturbance Areas

SDG&E is providing this map with the understanding that the map is not survey grade.

Transmission Line 6965 (cont.)

- Majority of power line would be within City of Chula Vista
- Northern portion of the line would be within unincorporated San Diego County and would connect to Miguel Substation
- **Construction Duration: 18 to 24 months**

Transmission line corridor looking north

Typical Transmission Line Poles

Typical Engineering
Foundation
Cable Pole (69-kV)
(3 poles)

Typical Single-Circuit
Engineering Foundation
Pole (69-kV)
(10 poles)

Typical Directly Embedded
Single-Circuit Pole (69-kV)
(30 poles)

Typical Directly Embedded
Double-Circuit Pole (69-kV)
(7 existing poles)

Other Project Components

- **Staging yards/
Equipment laydown
areas:**
 - **Hunte Parkway Staging Yard**
 - **Eastlake Staging Yard**
 - **Miguel Substation Staging Yard**
 - **Olympic Training Center Staging Yards (alternate)**
- **Stringing sites**
- **Helicopter landing zones/fly yards**
- **Access roads**

Project Operation and Maintenance

- **Substation would be unattended, automated, and operated remotely (no on-site staff)**
- **Regular maintenance would occur at the new substation and along the new power line**
- **Vegetation would be trimmed regularly, per SDG&E protocols**
- **Equipment would be repaired and/or replaced as needed**
- **Aerial and ground inspections would occur regularly**

CEQA Environmental Review Document

Project Description

- Define project:
 - Objectives
 - Components
 - Construction methods

Environmental Setting

- Define existing environmental setting where project would be constructed

Impact Analysis

- Determined during review under CEQA
- Based on information from:
 - SDG&E's PEA
 - SDG&E's Data Responses
 - CPUC's additional research

CEQA Environmental Review Document

Topics:

Aesthetics

Land use and planning

Agriculture and forestry resources

Mineral resources

**Air quality/greenhouse
gas emissions**

Noise

Biological resources

Population and housing

Cultural resources

**Public services
(fire, police, schools, parks)**

Geology and soils

Recreation

Hazards and hazardous materials

Transportation and traffic

Hydrology and water quality

**Utilities and service systems
(water, wastewater, solid waste)**

CEQA Environmental Review Document

Applicant Proposed Measures (APMs)

- Include APMs and Project Design Features proposed by SDG&E and included in the PEA
- Considered part of the project
- Intended to reduce impacts of the project

Mitigation Measures

- Developed by CPUC
- Mitigate significant impacts to environmental resources
- May be required in addition to APMs

Public Participation During Environmental Review

- **Comment on the scope of the CEQA environmental analysis**
- **Comments accepted until December 21**
- **The draft CEQA document will be available for public review and comment**
 - **Notices will be mailed when the document is published**
- **Public comments and responses to comments will be incorporated into the final document**

Schedule

Activity	Date
SDG&E Submits Application	September 25, 2013
CPUC Scoping Meeting	November 21, 2013
Close of Scoping/ Public Comments	December 21, 2013
CPUC Publishes CEQA document	Spring 2014
Public Review and Comment	Spring 2014
CPUC Publishes Final CEQA Document	Summer 2014
CPUC Decision	Fall 2014
SDG&E Start of Construction	Fall 2014
Construction Complete	Spring 2016

How Can You Provide Comments?

- Oral comments and questions tonight
- Fill out a comment card to submit written comments and questions tonight
- Submit comments after this meeting by mail, phone, or email

Mail	Voice Mail/Fax	Email
Mr. Jason Coontz CPUC c/o Panorama Environmental, Inc. One Embarcadero Center #740 San Francisco, CA 94111	(650) 373-1200 (650) 373-1211 fax	saltcreeksub@ panoramaenv.com

- Comments due by 5:00 p.m. on December 21, 2013
- For more information, go to:
http://www.cpuc.ca.gov/Environment/info/panoramaenv/Salt_Creek/index.html

Oral Comment Guidelines

- **State name and affiliation**
- **One person speaks at a time**
- **Avoid side conversations**
- **Keep input concise (to maximize participation)**
- **No clapping or booing**
- **Respect others' opinions/ interests**

APPENDIX B:
NOTICING

NOTICE OF SCOPING MEETING

The California Public Utilities Commission (CPUC) is requesting public input on the scope of environmental issues to be addressed in the:

CEQA Document for the Salt Creek Substation and 5-mile 69-kV Power Line Project Chula Vista, California

San Diego Gas and Electric is proposing to construct and operate a new substation, transmission line, and supporting infrastructure in the City of Chula Vista and a portion of unincorporated San Diego County. An environmental document will be prepared by CPUC pursuant to the requirements of the California Environmental Quality Act (CEQA). A description of the proposed project is available for review at the CPUC website at:

http://www.cpuc.ca.gov/Environment/info/panoramaenv/Salt_Creek/index.html

A public scoping meeting to accept comments on the environmental issues to be addressed in the environmental document will be held on **Thursday, November 21, 2013, from 6 to 8 p.m. in Multi-purpose Room No. 1 at Monteville Recreation Center, 840 Duncan Ranch Road, Chula Vista, CA 91914.**

Public comments on the CEQA process, proposed project, and environmental issues will be accepted until **December 21, 2013**. Please send comments to California Public Utilities Commission c/o Panorama Environmental, Inc., One Embarcadero Center, Suite 740, San Francisco, CA 94111 or by email to saltcreeksub@panoramaenv.com.

Application 13-09

Allen Trial
California Public Utilities Commission c/o
Panorama Environmental, Inc.
One Embarcadero Center, Suite 740
San Francisco, CA 94111

Dear Mr. Trial:

The California Department of Transportation (Caltrans) received a copy of the Application 13-09 for the proposed Salt Creek Substation project near State Route 125 (SR-125). We have the following comments:

Any work performed within Caltrans right-of-way (R/W) will require an encroachment permit. Please refer to Caltrans Encroachment Permits Manual (http://www.dot.ca.gov/hq/traffops/developserv/permits/encroachment_permits_manual/index.html) for guidance on utility encroachment.

Guidance for utility encroachment is contained in Chapter 600, Table 6.7 (page 6-35) of the Encroachment Permit Manual.

Additional information regarding encroachment permits may be obtained by contacting the Caltrans Permits Office at (619) 688-6158. Early coordination with Caltrans is strongly advised for all encroachment permits.

As part of the encroachment permit process, the applicant must provide an approved final environmental document including the California Environmental Quality Act (CEQA) determination addressing any environmental impacts within the Caltrans' R/W, and any corresponding technical studies. If these materials are not included with the encroachment permit application, the applicant will be required to acquire and provide these to Caltrans before the permit application will be accepted. Identification of avoidance and/or mitigation measures will be a condition of the encroachment permit approval as well as procurement of any necessary regulatory and resource agency permits. Encroachment permit submittals that are incomplete can result in significant delays in permit approval.

Mr. Allen Trial
December 10, 2013
Page 2

Freeway traffic control

Please refer to Caltrans Encroachment Permits Manual (Appendix E, Transportation Plan Management Guidelines) for guidance on Traffic Control on freeways for the placement of aerial lines. The construction of safety nets is another option that is outlined further in the Caltrans Encroachment Manual (Appendix E, H Support Diagram for Aerial Crossings).

If you have any questions on the comments Caltrans has provided, please contact Roger Sanchez of the Development Review Branch at (619) 688-6494.

Sincerely,

JACOB M. ARMSTRONG, Chief
Development Review Branch

Susanne Heim

From: Baker, Robert

Write your comment in the space below. Attach additional sheets or use the back of this sheet if you need more space.

What types of environmental things are
studied? radiation? etc.

Isn't there going to be a new substation
built in the south bay? Is that an option?
Where are other electrical towers & power
lines located in our area?

APPENDIX F:
SUMMARY OF COMMENTS RECEIVED DURING
NOVEBER 21, 2013, SCOPING MEETING

SCOPING MEETING NOTES

Date/Time: November 21, 2013/6-8 p.m.
Location: Monteville Recreation Center, Chula Vista
By: Susanne Heim and Laurie Hietter
Project: SDG&E Salt Creek Substation and 69-kV Transmission Line
Subject: CEQA Scoping

PUBLIC COMMENTS

Public comments recorded at the public meeting were focused on six major categories of concern. The comments are listed below by category.

Certainty of the Project Being Constructed

Is the project under construction already? I have seen people out working.

Is anything under construction?

It is hard to believe that once the location is picked that the project won't happen.

Is there a 99 percent chance the project will be built?

Is the substation location already selected?

Have you prepared the environmental impact report?

Will this project be constructed at the same time as the residential development that is proposed between Otay Lakes Road and East Lake Drive? Will the power lines be located over the new development?

Project Need

Why can't SDG&E use the existing line(s) rather than add new poles?

Why is the project necessary?

Is SDG&E building something in the South Bay?

Isn't there going to be a new substation built in the South Bay? Is that an option?

Where are the other electrical towers and power lines located in our area?

Do some lines send power to the area?

Are they opening up a new corridor?

Notification of Residents Close to the Proposed Project Location

I went on the website to look. I didn't get a notice – I just saw the work. Is there any chance that this will not be built?

How many people were notified? I did not receive a notice and I don't think a good enough job was done on notifying the public.

I received the postcard and it was not clear what was happening. There was no map on the postcard. I didn't know where the project was.

This should be on Facebook.

This is bad timing. The scoping period closes right before the holidays. The comments are due 12/21.

Health Concerns Associated With the New Power Line

My house is behind the power line, and the new line will be 300 meters from my fence. My house is elevated. Will the power line be over our homes?

Did you consider the elevation of the homes? The line will be directly in my backyard (Knollwood Drive).

My fence is 300 meters from the proposed line and 500 meters above the corridor.

Are health concerns considered?

What types of environmental things are studied? Radiation?

Noise Generated by the New Power Line

I can hear the power line singing at night. Will the new line do to that?

What is happening to the environment? What about the vibration of the line?

Location and Appearance of the New Power Line Poles

A resident near Highway 125 asked if there will be new power lines at Miguel Substation.

Do they know where the poles will be?

What will the poles look like?

Where are the power lines in the area? Are there other towers nearby?
