To Whom It May Concern,

Do you know there is always two sides to every story - As far as I can tell you who are so "Hung Ho" to ruin our beautiful area are not listening to the side affects it will have on we the "people" and "Wild Life". Also what will happen to our wells with using 17.65 millions gallons of water? On just one project? I suppose you Big Time Operators will do a "Rain Dance" to replace our water - (Ho-Ho) -

This morn I read my "Tea Leafs" and the story told they told was this Fiasco (wind machines, powerlink) was cut and dried from day one - Sure we can have have our say but when our words fall on deaf ears what good will it do?

I do wish I had mucho bucks and I would sue the pants off of you all, and then I would call the police to arrest you all for indecent exposer - Then we would all have a good laugh!

The first wind machines in our area in the 80's we lived a mile and a half from them. Every evening we would sit out in our back yard in the summer time and guess what?

We could hear the noise from those machines
It was a screeching sound - They were not
as large or as many as is planned to be put
in this time - So we have already been there
and done that -

I just love the words "Eminent Domain" when
Translated it really means "Get your A-- Out"
no matter if you are 104 yrs Old, "Move It" I also
just given a pittance for your home not enough
money to buy a "lean to"!!

Why are you not putting the Wind Machines
around the Capitol in Washington DC? Those
politrickers would spurt forth so much
hot wind you could not take care of all
of it - Then you could leave us "Mountain
Bumpkins" alone!

Oh no! Not when the Almighty Dollar is
talking it still talks louder than words
There will be so many wires crossing the sky you will
not be able to see the sun or moon -

Damn an Old Great Granny I still have some Smarts,
Back Bone I have never used yet - I came to
Jacumba in the very early 40's so I have been around
for a long time - Now I live in Boulevard have a
Beautiful Home plus Acreage but when there are
Wind monsters in every direction including one on
your front porch - The home values will be gone -

Heres Suds In your Eyes
Sincerely,
Mary L. Stewart
