The corridor travels through primarily urban, built-out commercial and industrial areas, county parklands, and open space areas..

Project Description

PG&E is proposing to construct the San Mateo-Martin #4 60 kV Conversion Project to convert an existing 60 kV line between the San Mateo and Martin Substations to 115 kV. The project includes replacing the existing wires ("conductors") and insulators on the existing San Mateo-Martin #4 60 kV power line with new wires ("reconductoring") and modifying facilities at the existing San Mateo,

Burlingame, Millbrae, and Martin Substations to accommodate the 115 kV circuit. The proposed project would take place on approximately a 12-mile stretch of power lines in San Mateo County.

NOTE: Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g., from a Notice of Preparation or previous draft document) please fill it in.

Reviewing Agencies Checklist

- Resources Agency**
- G Boating & Waterways
- G Coastal Commission
- G Coastal Conservancy
- G Colorado River Board
- G Conservation
