3.15.1 Setting

The project passes within one half-mile of 10 public parks—nine in the City of Olivehurst and one in the City of Marysville. The project also passes within one half-mile of one private recreational facility and intersects with one private recreational facility, the Peach Tree Golf and Country Club. The locations of these facilities are shown in Table 3.15-2 below.

3.15.2 Environmental Impacts and Mitigation Measures

- a. *Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?*

NO IMPACT. Population growth in a given area generally leads to increased use of recreational facilities, which can cause accelerated deterioration of the facilities. The project is not anticipated to induce

population growth during or after construction (Section 3.13, Population and Housing); therefore, there would be no impact under this criterion.

b. Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

NO IMPACT. The project would not include recreational facilities or require the construction or expansion of recreational facilities. There would be no impact under this criterion.
