April 28, 2015

Thomas A. Burhenn, Project Manager  
Director, Regulatory Affairs  
Southern California Edison  
2244 Walnut Grove Avenue  
Rosemead, CA 91770

**Re: Determination of Completeness, Southern California Edison's Amended Petition For Modification of Decision 10-08-009 (Granting a Permit to Construct the Valley-Ivyglen Subtransmission Line and Fogarty Substation Project)**

Dear Mr. Burhenn:

On April 2, 2013, Southern California Edison (SCE) submitted a Petition For Modification (PFM) of Decision 10-08-009 (Granting a Permit to Construct the Valley-Ivyglen Subtransmission Line and Fogarty Substation Project). On May 23, 2014, SCE filed an amendment to the previous PFM, hereafter referred to as the "2014 PFM". The Energy Division of the California Public Utilities Commission (CPUC) reviewed the 2014 PFM and issued SCE a total of six deficiency letters. SCE submitted the last outstanding deficiency item on April 20, 2015. The CPUC has reviewed all of SCE's submitted materials regarding the 2014 PFM to date and has determined that the 2014 PFM is complete. As the CPUC moves forward with the environmental review of the Valley-Ivyglen Subtransmission Line Project, in accordance with the California Environmental Quality Act (CEQA), we anticipate additional information gaps and needs will be identified. Therefore, the Energy Division reserves the right to request additional information at any point during the CEQA process.

We expect to release a Notice of Preparation and begin scoping activities for the Valley-Ivyglen Subtransmission Line and Alberhill System Projects within a few weeks. Questions relating to the Valley-Ivyglen Subtransmission Line and Alberhill System Projects should be directed to me at (415) 703-5484 or [Jensen.uchida@cpuc.ca.gov](mailto:Jensen.uchida@cpuc.ca.gov).

Sincerely,

A handwritten signature in black ink that reads "Jensen Uchida".
