**Question 26-01:**

**Impacts to SR 60**

In a comment submitted during the scoping period, Caltrans requested that the traffic study assess construction/traffic impacts on State Route (SR) 60. The current study assesses SR 60 on ramps, but does not include information on how truck traffic may affect eastbound and westbound traffic flow on SR 60. Include information in the report that assesses this.

**Response to Question 26-01:**

The TIA has been updated to include an analysis of construction traffic impacts on SR 60. The following mainline segments on SR 60 have been analyzed:

- SR 60, west of Garfield Avenue
- SR 60, Garfield Avenue to Paramount Boulevard
- SR 60, Paramount Boulevard to San Gabriel Boulevard
- SR 60, east of San Gabriel Boulevard
