

Comparison of Potentially Jurisdictional Features Mapped During Aquatic Resources Delineations for the Proposed Project

Jurisdictional Water Type	Preliminary Aquatic Resources Assessment (2021 – 2022) Amount (acres)¹	Aquatic Resources Delineation Report (2024) Amount (acres)¹
USACE Jurisdiction		
Non-Wetland Waters of the U.S.	0.0	0.0
Culverted Non-Wetland Waters of the U.S.	0.0	0.0
Wetland Waters of the U.S.	0.0	0.0
Total Waters of the U.S.	0.0	0.0
RWQCB Jurisdiction		
Non-Wetland Waters of the State	5.41	24.83
Culverted Non-Wetland Waters of the State	0.15	0.20
Wetland Waters of the State	0.0	0.0
Total Waters of the State	5.56	25.03
CDFW Jurisdiction		
CDFW Jurisdictional Streambed	19.94	38.79 ²
Potentially Jurisdictional		
Jurisdiction To Be Determined ³	25.84	0.0

¹ Acres estimated in GIS

² Includes approximately 17.79 acres of playa, 0.28 acre of basin, 20.40 acres of streambed and bank (vegetated and unvegetated), and 0.31 acre of ditch/canal.

³ Playas were mapped as potentially jurisdictional during the preliminary Aquatic Resources Assessment completed prior to submittal of the Proponent’s Environmental Assessment in 2021/2022. During the Aquatic Resources Delineation completed in 2024, playa features were mapped as non-wetland waters of the State (13.96 acres) due to presence of an Ordinary High Water Mark and absence of hydric soil indicators.
