SUBJECT: Cal City Substation 115 kV Upgrade Project – Data Request 6

Dear Ms. Charpentier,

As the California Public Utilities Commission (CPUC) proceeds with the environmental review for SCE's Cal City Substation 115 kV Upgrade Project (Project), we have identified additional information that is needed to adequately conduct the California Environmental Quality Act (CEQA) review. Please provide the information requested below (Data Request 6) within two weeks (or by August 8, 2024) and submit your responses in electronic format to the CPUC and to our consultant, Environmental Science Associates (ESA).

Please do not hesitate to call me at (408) 705-6030 if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "B. Sanchez".

Boris Sanchez
Energy Division Project Manager

cc: Michelle Wilson, CPUC CEQA and Energy Permitting Group Program and Project Supervisor
Tammy Jones, Senior Attorney, SCE
Matthew Fagundes, ESA
Maria Hensel, ESA
Michael Manka, ESA

Protecting California since 1911

The CPUC regulates privately owned electric, natural gas, telecommunications, water, railroad, rail transit, and passenger transportation companies.
