

In the interest of providing as timely a response as possible, it is important to note that the values in the attached file represent data which have been reviewed for obvious outliers but may still contain data that could represent such things as data capture errors, abnormal system configuration or conditions. The use of this data for battery storage sizing will require further modifications to address forecasted loads in different years as well as appropriate normalization for temperature.

		Electric Needs Area 2018 Load Data (MW)		
Date	Time	Chase 66/12 kV	Corona 66/12 kV	Jefferson 66/12 kV
1/1/2018	0:00:00	27.90	15.82	27.68
