Mr. Willie Gaters
San Diego Gas and Electric
8315 Century Park Ct., cp21e
San Diego, CA 92123

Subject: SDG&E Job TL 6975 – Harmony Grove

Dear Mr. Gaters:

This letter will confirm water availability for the above-referenced project. The project is partial located within the Vallecitos Water District water service area. District water facilities are available in the vicinity for this project's use (based on the following attachments provided by SDG&E).

At this time, the District is able to provide potable water for this construction project through existing fire hydrants in the area. Exact fire hydrant locations have not been field verified for the issuance of this letter. At a later date, the District will provide a map indicating approximate locations of fire hydrants along the project work site.

Construction water connections are to use construction meters installed by the District on District fire hydrants. All connections are governed by District ordinances and regulations concerning connections, deposits and commodity charges. For more information, please contact Vallecitos Water District Engineering Department at (760-744-0460).

The Vallecitos Water District relies one hundred percent on imported water supplies, water may not be available at the time the project is built. Commitments to provide service are made by the District Board of Directors and are subject to compliance with District fees, charges, rules, regulations and ordinances.

Sincerely,

Ingrid Stichter
Engineering Technician II

Cc: Robert Scholl, Senior Development Services Engineer
