SUBJECT: Data Request #12 for the SDG&E San Marcos to Escondido TL6975 69kV Project
Initial Study

Dear Mr. Lyons:

As the California Public Utilities Commission (CPUC) proceeds with our environmental review of San Diego Gas & Electric Company's (SDG&E)'s San Marcos to Escondido TL6975 69kV Project (Project), we have identified additional information. The CPUC requests SDG&E provide the following information (Data Request #12) by October 24, 2019. Please inform the CPUC if SDG&E cannot meet this deadline request.

In addition to the aforementioned information, the Energy Division may request additional data, as necessary, to prepare a complete and adequate analysis of the potential environmental effects of the Project in accordance with the requirements of CEQA.

Please do not hesitate to call me at (415) 703-1810 if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joyce Steingass".

Joyce Steingass
Project Manager
Energy Division, CEQA Unit

1) Data Request #12

Data Request #12
SDG&E San Marcos to Escondido TL6975 69kV Project

1. Provide information to explain whether it would be feasible to co-locate the proposed 69 kV line on the existing tubular steel poles carrying the existing 138 kV transmission lines in Segment 2.
2. Provide information to explain what SDG&E could do to design and engineer the proposed 69 kV line as an underbuilt line to avoid the second parallel installation of facilities in Segment 2.
3. Were other design options considered to install the 69 kV line in Segment 2? If so, please identify them and provide an explanation as to why the options were not selected for this project.
4. When is the estimated in-service date for the proposed project?
5. Why was this estimated in-service date selected for the proposed project?
