SUBJECT: Data Request #7 for the SDG&E San Marcos to Escondido TL6975 69kV Project
Initial Study

Dear Mr. Lyons:

As the California Public Utilities Commission (CPUC) proceeds with our environmental review of San Diego Gas & Electric Company's (SDG&E)'s San Marcos to Escondido TL6975 69kV Project (Project), we have identified additional information required in order to adequately conduct the CEQA review. The CPUC requests SDG&E provide the following information (Data Request #7) by January 18, 2019. Please inform the CPUC if SDG&E cannot meet this deadline request.

In addition to the aforementioned information, the Energy Division may request additional data, as necessary, to prepare a complete an adequate analysis of the potential environmental effects of the Project in accordance with the requirements of CEQA.

Please do not hesitate to call me at (415) 703-1810 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Joyce Steingass".

Joyce Steingass
Project Manager
Energy Division, CEQA Unit

Attachment:

1) Data Request #7

Data Request #7
SDG&E San Marcos to Escondido TL6975 69kV Project

1. Provide Attachment 1 (Fire Prevention Matrix) of PEA Appendix 4.8-B, TL 6975 Construction Fire Prevention Plan.
2. Provide information on how SDG&E documents, reports, or otherwise ensures compliance of its fire prevention procedures during project construction.
3. Provide information on any end-of-day or other inspections conducted during construction and maintenance activities – or other activities that ensure that project components have been installed correctly and that any ignition risks that could occur after works are minimized or eliminated.
4. To support the CEQA administrative record, describe any spending authorized by CPUC specifically dedicated to SDG&E’s fire prevention efforts. Describe any measures, equipment used, and/or any specific fire prevention efforts taken as a result of this spending. Identify the actual expenditures incurred by SDG&E by completing a table similar to the below example:

Program	2013	2014	2015	2016	2017
Vegetation Management Tree Trimming					
Vegetation Management Pole Brushing					
Pole Replacement (wood to steel)					
Fire Risk Mitigation (itemize by project)					
Wildfire Mitigation Program (itemize by project)					
Other					

5. Provide the annual report on risk spending and mitigation accountability for Calendar Year 2017.
