Initial Study

Dear Mr. Lyons:

As the California Public Utilities Commission (CPUC) proceeds with our environmental review of San Diego Gas & Electric Company's (SDG&E)'s San Marcos to Escondido TL6975 69kV Project (Project), we have identified additional information required in order to adequately conduct the CEQA review. The CPUC requests SDG&E provide the following information (Data Request #9) by July 15, 2019. Please inform the CPUC if SDG&E cannot meet this deadline request.

In addition to the aforementioned information, the Energy Division may request additional data, as necessary, to prepare a complete and adequate analysis of the potential environmental effects of the Project in accordance with the requirements of CEQA.

Please do not hesitate to call me at (415) 703-1810 if you have any questions.

Sincerely,
