

**TABLE 4.5-2  
AIR BASIN ATTAINMENT/NON-ATTAINMENT DESIGNATIONS**

Pollutant	National	State
<b>San Francisco Bay Area Air Basin</b>		
Ozone <sup>a</sup>	Non-attainment <sup>b</sup>	Non-attainment
Carbon Monoxide	Attainment <sup>c</sup>	Attainment
Nitrogen Dioxide	Attainment	Attainment
Sulfur Dioxide	Attainment	Attainment
Lead	Unclassified	Attainment
Particulate Matter (PM-10) <sup>d</sup>	Unclassified	Non-attainment
Hydrogen Sulfide	Not applicable	Unclassified
<b>Lake County Air Basin</b>		
Ozone <sup>a</sup>	Attainment	Attainment
Carbon Monoxide	Attainment	Attainment
Nitrogen Dioxide	Attainment	Attainment
Sulfur Dioxide	Unclassified	Attainment
Lead	Unclassified	Attainment
Particulate Matter (PM-10) <sup>d</sup>	Unclassified	Attainment
Hydrogen Sulfide	Not applicable	Attainment
<b>North Coast Air Basin / Northern Sonoma County Subregion</b>		
Ozone <sup>a</sup>	Attainment	Attainment
Carbon Monoxide	Attainment	Unclassified
Nitrogen Dioxide	Attainment	Attainment
Sulfur Dioxide	Unclassified	Attainment
Lead	Unclassified	Attainment
Particulate Matter (PM-10) <sup>d</sup>	Unclassified	Non-attainment
Hydrogen Sulfide	Not applicable	Attainment

<sup>a</sup> The designations for ozone relate to the one-hour average state and national standards. Air Basins will not be classified with respect to the new eight-hour national ozone standard for several years.

<sup>b</sup> On June 25, 1998, EPA announced its final decision to re-designate the San Francisco Bay Area Air Basin to non-attainment for the national ozone standard.

<sup>c</sup> Attainment designation is effective on June 1, 1998 (see *Federal Register*, March 31, 1998).

<sup>d</sup> Since monitoring for PM-2.5 only began in 1998, air basins will not be classified with respect to the new national PM-2.5 standard until 2000 or later.
