Privacy Notice: All information provided on this form will become part of the public record. Unless indicated by you otherwise, you will automatically be added to the CEQA mailing list.

Your input on the proposed project is greatly appreciated. If you have comments on the accuracy and adequacy of the Draft Environmental Impact Report (EIR) for the Monterey Peninsula Water Supply Project (MPWSP) you can submit your comments by turning in this completed comment form tonight in the comment box located at the sign-in table; faxing your comments to (415) 896-0332; emailing your comments to MPWSP-EIR@esassoc.com, or mailing them to the following address:

Attn: Andrew Barnsdale
California Public Utilities Commission
c/o Environmental Science Associates
550 Kearny Street, Suite 800
San Francisco, CA 94108

Comments should pertain to the accuracy and adequacy of the Draft EIR prepared for the MPWSP. All comments must be received by the CPUC no later than July 1, 2015. PLEASE PRINT LEGIBLY.

Comment:

PAGE 4-4-75 "If it is determined that a nearby active groundwater well has been damaged or otherwise negatively affected by the project pumping of the slant wells, the project applicant shall coordinate with the active well owner to arrange for an interim water supply and begin developing a mutually agreed upon course of action to repair or deepen the existing well, restore groundwater yield by improving long term replacement of water supply, or construct a new well".

Comment Form for the Monterey Peninsula Water Supply Project Environmental Review Process

Comment continued:

Does this -75 exclude the participation of MCWRA?
How long are the terms "interim", "long term", and "fix"?
How long do these terms take to get the appropriatr fix
resolved? Same with "litigation". Where is the MCWRA in the
review of any of these? A deeper well could do damage to
basin, or be more advantageous to the farmer. Who, pays for
any litigation? Is this in CalAm's budget?
