Comment/Comentario: Being the owner of one of the oldest ranches in the area, I have tried to keep the land as close to the original "foot print" as possible. This project will destroy the atmosphere of the historical value and concept of the area, and will be an everlasting eyesore for everyone who values the historical aspect of the area. There still remains MANY Indian artifacts and these will forever be lost by this needless and thoughtless project. With technology available for wind power and solar power, there is NO NEED for such an ugly, invasive, destructive "adventure". There are many burial grounds of our American Indians former residents of the area. These will be disturbed. There is no way to undo the harm this act will do, and no way to tell their modern day relatives "WE'RE SORRY"!!!
