Comment/Comentario: I strongly believe that there has not been enough research done in regards to the economical impact in regards to this project. There are way too many negative factors involved with these issues in regards to any other route besides the route 3. The fact that these powerlines would take precedence over humanity is an absolute abomination. I believe that there should be consideration to the environment, but I also believe that going as the human population is not going to stop, then there must be balance. We must consider the impact on the monetary effect all the way around. The people that are putting these lines in are guaranteed a pay check. Are the people that stand to lose so much being given the same consideration?

By submitting comments on the Draft Environmental Impact Report (EIR), you will be sent a copy of the Final EIR. Please indicate the format in which you would like to receive the document:

Todos que presentan sus comentarios sobre el Borrador de la EIM recibirán una copia de la EIM Final. Favor de elegir el formato en el que desea recibir su copia de la EIM Final:

Compact Disc/Disco Compacto
