Extension of Public Review of Draft EIR

Proposed Estrella Substation and Paso Robles Area Reinforcement Project

Notice is hereby given that the California Public Utilities Commission (CPUC) is extending the public review period of the draft Environmental Impact Report (EIR) for the proposed Estrella Substation and Paso Robles Area Reinforcement Project (Proposed Project). The new deadline for submission of public comments on the Draft EIR is **5:00 pm, Monday, February 22, 2021**.

The CPUC is extending the public review period of the draft EIR in response to public requests for additional time to prepare comments during the ongoing COVID-19 pandemic.

Copies of the draft EIR and links to YouTube videos of the CPUC's December 2020 public meetings are available for review online at the CPUC's project website:
