Dear Ms. Bohnert,

As requested, the Military Aviation and Installation Assurance Siting Clearinghouse coordinated within the Department of Defense (DoD) an informal review of the Collinsville 500/230 kV Substation Project. The results of our review indicated that the transmission line project, located in Solano, Sacramento, and Contra Costa Counties, California, as proposed, will have minimal impact on military operations conducted in the area.

Please note that this informal review by the DoD Military Aviation and Installation Assurance Siting Clearinghouse does not constitute an action under 49 United States Code Section 44718 and that the DoD is not bound by the conclusion arrived at under this informal review. To expedite our review in the Obstruction Evaluation Airport Airspace Analysis (OE/AAA) process, please add the project number 2024-09-T-DEV-11 in the comments section of the filing. If you have any questions, please contact me at [robbin.e.beard.civ@mail.mil](mailto:robbin.e.beard.civ@mail.mil).

Sincerely,

A handwritten signature in blue ink that reads "Robbin Beard".
